

Scrum 02 Retrospective

<https://cseejira.essex.ac.uk/browse/A293011-67>

Date:

20/11/2020

Attendees:

All team members present.

Meeting summary:

Team members have met and discussed the progress made during the last sprint.

Some work was not completed – these tasks have been carried over to the backlog of the following sprint.

We have begun to narrow down our project and create a parts list of potential sensors and components we may need.

Some generic code used to control the basic motions of the autonomous car has been analysed by the team – we have not yet had the opportunity to test this on the physical car.

A new sprint has been created with tasks assigned to team members.
