

Stand-up meeting

<https://cseejira.essex.ac.uk/browse/A293011-98>

Date:

01/12/2020

Attendees:

All team members present

Meeting summary:

The team met to discuss the progress towards completing the MVP document:

- A problem sourcing the desired mbed components from the specified retailers has been raised. This is affecting the completion of the parts list and will need resolving with the client.
- The generic code for moving and steering the car was discussed. We have made several changes which now need to be tested.
- Friday's MVP presentation was discussed and a mutual power point document has been created online and all team members given access.
